

## SINGLE-STATE AGENCY DIRECTORY

### *Prevention and Treatment of Mental and/or Substance use Disorders*

Each U.S. State and territory offers information and support regarding mental and/or substance use disorders through the local government offices listed below. The following facilities are licensed, certified, or otherwise approved for inclusion by their State's mental and/or substance use disorder treatment authority. Their role is to plan, carry out, and evaluate mental and/or substance use disorder prevention and treatment services provided to individuals and families. Specifically, they oversee treatment centers and counselors in their respective States and, in many cases, supply funding to providers, track State trends, and ensure that residents receive the services to which they are entitled. **Unless the mental and substance use offices are combined – as they are in many States – the mental health services office is listed first, followed by prevention services, then the substance use services office.**
