PLAN TO ATTEND THIS IMPORTANT EVENT

Advancing MAT in Iowa: *Exploring the Role of MAT as a Tool for Recovery*

With an array of effective FDA-approved medications now available for addressing the emerging prescription and opioid use epidemic, it is vital that specialty substance use disorder (SUD) treatment and healthcare providers learn more about Medication Assisted Treatment (MAT). Equally important, policy makers, drug court/family court personnel, and social service professionals will learn how supporting the use of medication, combined with evidence-based behavioral therapies, can save lives and reduce healthcare costs.

FEATURED KEYNOTE SPEAKERS

Edwin A. Salsitz, MD, DFASAM, Mount Sinai Beth Israel Medical Center, Division of Chemical Dependency

Ned Presnall, LCSW, Executive Director, Clayton Behavioral

MAT Panel of Iowa Opioid Treatment Providers and IDPH

Kevin Gabbert, Michael Polich, Malissa Sprenger, Michele Tilotta

WHO SHOULD ATTEND

This training is designed for participants in the Iowa Certified Community Behavioral Health Clinics (CCBHC) Grant including healthcare professionals, nurses, physicians, pharmacists, substance abuse counselors, mental health professionals, CEO's, policy makers and other helping and allied professionals. **This training is open to the general public on July 12, 2016 for all others.**

Hotel: A block of rooms has been reserved at Stoney Creek Hotel and Conference Center, 5291 Stoney Creek Ct., Johnston, IA 50131 under MAT. Call 800-659-2220 before August 12 and ask for MAT room block to receive the discounted rate of \$83 plus tax. Individuals are responsible for placing their own reservations at their own expense.

Sponsored by: Iowa Department of Public Health, Division of Behavioral Health. Funded by The Certified Community Behavioral Health Clinic Grant; #1H79SM062962-01 through the Substance Abuse Mental Health Services Administration (SAMHSA) and the Mid-America Addiction Technology Transfer Center (Mid-America ATTC).

Brochure with Session Descriptions and Agenda

Monday, September 12, 2016

8:00-8:30 *Registration*

8:30 – 8:45 *Welcome*

DeAnn Decker, Bureau Chief, Iowa Department of Public Health, Division of Behavioral Health

Kevin Gabbert, Project Director, Access to Recovery, Iowa Department of Public Health, Division of Behavioral Health

Pat Stilen, LCSW, Director, Mid-America ATTC

Michele Tilotta, Substance Abuse Block Grant Manager, Iowa Department of Public Health, Division of Behavioral Health

Welcome Description: Sponsors of this event will welcome participants and set the stage for the topic of this event: Exploring the role of medication-assisted treatment as a tool for recovery from substance use disorders.

Welcome Objective: Participants will learn the goals of this one-day event and begin to understand why state leadership supports statewide implementation of medication-assisted treatment for substance use disorders.

8:45 – 10:15 *The Science of Addiction and Medication-Assisted Treatment*

Edwin Salsitz, MD, DFASAM, Mount Sinai Beth Israel Medical Center, Division of Chemical Dependency

Description: Dr. Salsitz will cover the neurobiology of addiction and how medication-assisted treatment affects the brain and thus the behavior of clients/patients who have substance use disorders.

Objective: Discuss the neurobiology of addiction and how medication-assisted treatment affects the brain and thus the behavior of the clients/patients who have substance use disorders.

10:15 – 10:30 *Break*

10:30 – 12:00 *CONTINUED - The Science of Addiction and Medication-Assisted Treatment*

Edwin Salsitz, MD, DFASAM, Mount Sinai Beth Israel Medical Center, Division of Chemical Dependency

12:00 – 1:00 *Lunch (on your own)*

1:00 – 2:30 *The Application of Medication-Assisted Treatment*

Ned Presnall, MSW, LCSW, Executive Director, Clayton Behavioral; **Panelists with lived experience**

Description: Presnall will discuss the use of medication-assisted treatment from the perspective of a social worker's perspective-using case studies as well as interviewing persons who themselves are in recovery though the use of various medications which support their recovery from substance use disorders.

Objective: Participants will begin to understand how medication-assisted treatment, along with counseling, provides the extra support needed by some clients/patients in order to be successful in their short-term and in some cases, long-term, recovery from substance use disorders.

2:30 – 2:45 *Break*

2:45 – 3:45 *Stakeholder Panel on Medication-Assisted Treatment*

Facilitator - Ned Presnall, MSW, LCSW, Executive Director, Clayton Behavioral

Kevin Gabbert, Project Director, Access to Recovery, IDPH

Michael Polich, Executive Director, United Community Services

Malissa Sprenger, MS, IAADC, Coordinator, Mercy Turning Point Treatment Center

Michele Tilotta, SABG Manager, IDPH

Description: This panel consists of persons, all of whom are stakeholders in regard to expanding the use of medication-assisted treatment for persons with substance use disorders.

Objective: Participants will learn the breadth of positive affect that medication-assisted treatment can have on a community & the various components of community support needed in order for that treatment to be successful.

3:45 – 4:00 *Summary Session*

Facilitated by Ned Presnall, MSW, LCSW, Executive Director, Clayton Behavioral

Description: Summary of the day's speakers, lead an open discussion of what was covered in this event, and suggest possible next steps for the state and individual providers to take in exploring and implementing the use of medication-assisted treatment.

Objective: Participants will begin to understand the next steps in learning about, securing stakeholder buy-in for, and implementing medication-assisted treatment throughout Iowa.

GENERAL INFORMATION

Who Should Attend

This training is designed for participants in the Iowa Certified Community Behavioral Health Clinics (CCBHC) Grant including healthcare professionals, nurses, physicians, pharmacists, substance abuse counselors, mental health professionals, CEO's, policy makers and other helping and allied professionals. **This training is open to the general public on July 12, 2016 for all others.**

Conference Audience and Objectives

- Provide an educational opportunity to hear professionals and experts share the most recent FDA-approved medications available for addressing the emerging prescription and opioid use epidemic.
- Learn how supporting the use of medication, combined with evidence-based behavioral therapies, can save lives and reduce healthcare costs.
- Provide a forum to stimulate discussion of MAT.
